Pace is a comprehensive university with five schools and college that offers a wide range of academic and professional programs for a large, diverse population of more than 13,000 students in for-credit programs, and in affiliated offerings. Through its Lubin School of Business, Pace continues to build its reputation for excellence in business education. The Lienhard School of Nursing, the School of Law, the School of Education and the School of Computer Science and Information Systems are more recent responses to the needs of the New York City and Westchester communities for strong professional schools to prepare a well-educated workforce.

Stone Barns Center for Food and Agriculture is a beautiful non-profit farm and educational center in the heart of Westchester County. The mission is to demonstrate, teach and promote sustainable, community-based food production.

Environmental Education Summer Courses

Partnering with Stone Barns Center For Food & Agriculture
The Rockefeller Preserve

Graduate Courses in Environmental Education for Elementary & Middle School Teachers
For K-8 Teachers—July 11-15
For 4-8 Teachers—July 5-13

Pace University
Bedford Road
Pleasantville, NY 10570

Phone: 914-773-3789, 914-773-3653
Fax: 914-773-3521
E-mail: Sflank@pace.edu
EDL 673M
Introduction to Environmental Education for K-8 Teachers

• Gain an understanding of our role as individuals and educators in relation to preserving our planet.
• Learn about watershed protection from an educator of the Department of Environmental Protection
• Study marine ecology on the shore of Long Island Sound
• Discover nature while hiking through the woods of the Rockefeller preserve
• Visit the Stone Barns, a sustainable agricultural facility
• Attend class in a classroom set on an old farm in the middle of a university campus
• Improve outdoor teaching skills by incorporating techniques taught by an Audubon naturalist
• Comprehend the relevance of environmental issues as taught by Pace’s Environmental Studies professors
• Observe up close, wildlife and birds of prey while learning about their significance through presentations at Pace’s Environmental Center
• Engage in group projects on alternative sources of energy and debate current issues

Dates: July 11-15 Time: 9-4

EDL 673Q
Interdisciplinary Approaches to Environmental Education for Middle & Upper Primary Teachers

• Develop interdisciplinary curriculum for upper primary and middle school classes
• Conducted at the Stone Barns Center for Food and Agriculture in Pocantico Hills
• Focus on the history and science of food and agriculture
• Work with teams of history, science and language arts teachers to study:
  • The history of the area and how agriculture has been part of local history
  • The science of food production and sustainable agriculture
• Interdisciplinary teams will write standards-based curriculum to use in their own classrooms
• Teams will have the opportunity to “pilot test” a portion of their curriculum at Stone Barns Center Camp

Dates: July 5-8, 11-13
Time: 9-4

EDL 673M - A three-credit graduate course @ $680 per credit plus a $40 application fee and a $50 materials fee

EDL 673Q - A three-credit graduate course @ $680 per credit plus a $40 application fee and a $50 materials fee
