The American Heart Association
Basic Cardiac Life Support (BCLS)
Health Care Provider Course

This course is designed to teach the skills of CPR for victims of all ages, including ventilation with a barrier device, a bag-mask device, and oxygen; use of an automated external defibrillator (AED); and relief of foreign-body airway obstruction (FBAO). It is intended for participants who provide health care to patients in a wide variety of settings, including in-hospital and out-of-hospital. For certified or noncertified, licensed or nonlicensed health care professionals.

Written/Skills Exam: Required for card completion
Student Materials Provided: AHA BLS Provider Manual

Instructors: Provided by Learn ACLS, LLC
Common Environmental Exposures: 
Implications for School Nurses

This exceptional program, designed specifically for school nurses, explores the risks related to everyday, common environmental exposures such as the use of green soap, and use of plastics. Symptom recognition, differential diagnosis, alternative strategies, and treatment modalities will be discussed.

Distinguished Faculty: Patricia Wood is the founder and executive director of Grassroots Environmental Education, a nonprofit organization dedicated to educating the public about the links between toxic environmental exposures and human health risks.

DATE: October 18, 2005
TIME: 5:00–8:30 p.m.
LOCATION: Pleasantville Campus
CONTACT HOURS: 3.6
EARLY BIRD FEE: $42.00 if registered and paid 14 days or more before the session begins
REGULAR FEE: $49.00 if registered and paid fewer than 14 days before the session begins

Dementia Specialist Certificate Program

This program is designed for medical and healing professionals/workers, e.g., nurses, hospital technicians, pharmacists, physical therapists, social workers, and case managers.

Alzheimer’s and dementia will be examined in relation to understanding pathology, therapeutic communication and interventions, negotiating the medical system (including hospitalization), and caring for the caregiver.

Distinguished Faculty: Ruth M. Ahearn, MSW in Gerontology, is associate director of programs and services at Alzheimer’s Association, Hudson Valley, Rockland, and Westchester, New York chapters.

DATE: September 21, 28; October 5, 12, 19, 2005
TIME: 5:30–8:30 p.m.
LOCATION: Pleasantville Campus
CONTACT HOURS: 18
EARLY BIRD FEE: $369 if registered and paid 14 or more days before session begins
REGULAR FEE: $379 if registered and paid fewer than 14 days before session begins

Comprehensive Physical Assessment of the Adult

Do you need physical assessment skills to perform better in your present job or to qualify for a new job? Do you need to increase your competency to do physical assessments at work on a routine basis, or to perform physical exams as screening before referral to MD? Do you need to feel more comfortable and secure in what you document on an assessment? Do you need to be able to identify normal findings and know when to call the physician? Do you need a comprehensive physical assessment course to enter an advanced nursing program? Or perhaps you are planning to take the Regents External Degree and need physical assessment skills to pass the test? If you answered “yes” to any of these questions, then this is the program for you!

This very highly rated program is an all-inclusive approach to assessment of the adult, introducing participants to physical assessment skills covering the major body systems in normal, healthy adults. History taking, inspection, auscultation, percussion, and palpation will be reviewed enabling participants to assess normal findings, and recognize abnormal findings. There will be supervised practice sessions in the nursing lab, enabling participants to acquire and develop detailed physical assessment skills.

DATES: October 14, 15, 21, 22, 2005
TIME: 8:30 a.m.–4:00 p.m.
PLACE: Learning Resource Center, 3rd floor, 41 Park Row, New York City
CONTACT HOURS: 31.4 for each session
EARLY BIRD FEE: $449 if registered and paid 14 days before the session begins
REGULAR FEE: $465 if registered and paid fewer than 14 days before the session begins
PLEASE NOTE: Registration will be limited to 18 participants.

The following recommended text and equipment may be purchased at the Pace University Bookstore:

• Stethoscope, reflex hammer, tuning fork, and penlight

FNP Certification Review Course
May 5–7, 2006
Legal Nurse Consultant Information Session

Learn about the Legal Nurse Consultant (LNC) program at Pace University’s Lienhard School of Nursing. It is the most comprehensive and in-depth program of its kind. It is the only ANCC accredited LNC program produced in partnership with an ABA accredited law school—Pace University School of Law. This unique LNC program is particularly rigorous and practice-oriented, specifically tailored to the needs of experienced nursing professionals who want to:

- Act as consultants to law firms handling personal injury and/or medical malpractice cases
- Handle risk management issues for HMOs, insurance companies, etc.
- Investigate potential and filed claims involving clients injured during the course of treatment for a hospital, ambulatory care center or clinic as a consultant; full- or part-time quality assurance manager
- Practice in a variety of governmental agencies as an investigator for state licensing boards
- Review medical records, prepare claims for hearings, or act as a medical case manager to coordinate care for injured workers filing for Workers’ Compensation

The intensive LNC curriculum was designed by faculty and administrators from Lienhard School of Nursing and Pace Law School as well as legal and medical professionals. A practicum concludes the program, allowing students to explore various LNC settings and experiences.

The 275-hour program will be offered annually from May 2005 to April 2006. All classes will be held during the evening to accommodate the working professional student.

Session I

DATE: November 14, 2005
TIME: 6:30–8:30 p.m.
LOCATION: Butcher Suite, Kessel Campus Center, Pleasantville Campus

Session II

DATE: November 30, 2005
TIME: 6:30–8:30 p.m.
LOCATION: Hudson Valley Center

Focused Clinical Assessment of the Heart and Lungs

Designed for professional nurses who need to know how to assess a client’s heart and lungs, this hands-on workshop will focus on clinical assessment skills. This workshop will enable participants to obtain an accurate database, to detect common deviations from the norm, to communicate findings to peers/colleagues, and to document findings in a professional manner. As a unique feature, participants at this workshop will have the opportunity to work with simulators that demonstrate different heart and lung sounds for a truly extraordinary learning opportunity!

DATE: November 2, 2005
TIME: 9:30 a.m.–4:00 p.m.
PLACE: Learning Resource Center, Lienhard Hall, Pleasantville Campus
CONTACT HOURS: 6.6
EARLY BIRD FEE: $149 if registered and paid 14 days or more before the session begins
REGULAR FEE: $159 if registered and paid fewer than 14 days before the session begins
PLEASE NOTE: Registration will be limited to 30 participants, on a first come, first served basis.

Interactive Pain Management Workshop

All nurses are faced with the challenge of providing pain management and applying measures to assure that their patients are free from pain. An interactive format will be used to provide information, which will emphasize the importance of pain management for our patients in a variety of health care settings. Strategies to overcome the challenges of appropriate assessment and intervention will be addressed.

Distinguished Faculty: Jill Loeb, MSN, RN, a pain management specialist, educator, and consultant, has specialized in pain management and quality improvement for more than 10 years. In that time, she has become recognized as an expert on assessing and managing pain as well as on advancing pain care.

**Oncological Emergencies**

The purpose of this class is to provide the nurse with information to improve the clinical assessment and management of selected oncological emergencies. A review of the pathophysiology, manifestations, diagnosis, and nursing management of several emergencies will be covered.

The emergencies covered include:

- Cardiac Tamponade
- Hypercalcaemia
- Febrile Neutropenia, Sepsis/Septic Shock
- Pleural Effusion
- Spinal Cord Compression
- Tumor Lysis Syndrome
- Disseminated Intravascular Coagulation

Objectives:

- Participant will be able to discuss etiology of each of the oncological emergencies
- Participant will be able to identify patients at risk for each of the emergencies
- Participants will be able to identify S/S of each emergency
- Participant will be able to discuss medical interventions for each emergency
- Participants will be able to develop a nursing care plan for a patient with each emergency

**Distinguished Faculty:** Karen Abbas, RN, MS, AOCN, is an oncology CNS at Vassar Brothers Medical Center in Poughkeepsie, New York. She has more than 19 years of experience as an oncology nurse and more than 11-years experience as an oncology CNS. She is an ONS trainer for both the ONS Chemotherapy and Biotherapy, and the ONS Radiation Therapy courses.

**DATE:** November 4, 2005
**TIME:** 9:00 a.m.–4:30 p.m.
**LOCATION:** Pleasantville Campus
**CONTACT HOURS:** 7.2

**EARLY BIRD FEE:** $149 if registered and paid 14 days or more before the session begins
**REGULAR FEE:** $159 if registered and paid fewer than 14 days before the session begins

**Oncological Emergencies**

- Syndrome of Inappropriate Antidiuretic Hormone
- Anaphylaxis
- Increased Intracranial Pressure
- Superior Vena Cava Syndrome
- Bowel Obstruction
- Leukostasis Syndrome

**Palliative Care**

The purpose of this class is to introduce information about palliative care to the nurse and the means by which it can be integrated into the nurse’s practice.

Objectives:

- Define palliative care
- Discuss the role of palliative care in today’s medicine
- Describe communications techniques used by oncology nurses when caring for patients and families
- Discuss important factors in communicating bad news
- Discuss the different goals of care and how they interrelate with change
- Discuss the seven-step protocol goals of care
- Assess and develop a nursing plan of care for each of the following symptoms: pain, dyspnea, nausea/vomiting, anorexia/cachexia, fatigue, lymphedema, wounds, depression, and delirium/restlessness
- Discuss ethical issues and dilemmas that may arise during end-of-life care
- Describe specific roles of the RN in ethical decision making
- Recognize spiritual distress in patients/families, and discuss appropriate response

**Distinguished Faculty:** Karen Abbas, RN, MS, AOCN, is an oncology CNS at Vassar Brothers Medical Center in Poughkeepsie, New York. She has more than 19 years of experience as an oncology nurse and more than 11-years experience as an oncology CNS. She is an ONS trainer for both the ONS Chemotherapy and Biotherapy, and the ONS Radiation Therapy courses.

**DATE:** December 2, 2005
**TIME:** 9:00 a.m.–4:30 p.m.
**LOCATION:** Pleasantville Campus
**CONTACT HOURS:** 7.2

**EARLY BIRD FEE:** $149 if registered and paid 14 days or more before the session begins
**REGULAR FEE:** $159 if registered and paid fewer than 14 days before the session begins

Update on Rashes in Preschool and School-Aged Children and Adolescents

This workshop is for registered nurses/nurse practitioners who work with children in any and all clinical settings, including schools, clinics/ambulatory care/primary care, health departments, and home care. It is also appropriate for acute care pediatric nurses who need to update their clinical skills in the identification of childhood rashes.

Are you a pediatric nurse who needs a clinical update on the most common rashes you are likely to find in your pediatric population? As a school nurse, are you 100 percent confident in your clinical decision making when children present with a rash in school? Do you need to know more about the exanthematous diseases of childhood as well as other troublesome rashes? Would you like to refresh and update your clinical skills in identifying rashes in pre-school, school-aged, and adolescent patients? If you answered “yes” to just one of these questions, then you cannot afford to miss this timely and important workshop.

Objectives:

• Differentiate skin rashes caused by bacterial infections commonly seen in childhood, including impetigo and scarlet fever
• Differentiate among skin rashes caused by exanthematous diseases commonly seen in childhood, including varicella, rubella, fifth disease, rubella, hand-foot-mouth disease, herpetic gingivostomatitis, and herpes simplex
• Differentiate among other troublesome rashes such as poison ivy/oak/sumac, Lyme disease, tinea capitis/corporis, and scabies

Distinguished Faculty: Catherine L. Hopkins, MSN, RN, FNP, is the director of Community Outreach at St. Joseph’s Medical Center in Yonkers, New York, where she provides primary health services and manages four school-based clinics in the Yonkers school system.

Registered Nurse (RN) Refresher Program: Classroom Component

We are in a nursing shortage crisis! This is the ideal time for the registered nurse to return to the workforce. If you are a currently licensed but inactive registered nurse who wishes to return to clinical practice, our nurse refresher course may be just what you need. Our focus is on the nursing care of hospitalized adult medical/surgical clients. Our curriculum focuses on what the RN returning to work really needs to know. The didactic component will feature lecture and discussion, as well as hands-on learning experience and simulated practice in the nursing lab.

Distinguished faculty: Margaret Turiano, MS, RNCS, is a clinical specialist at White Plains Hospital. Her lively, nurturing instruction will make even the most hesitant returning nurse feel welcome while developing confidence in your nursing skills.

DATES: October 7, 14, 21, 28; November 4, 11, 18; December 2
TIMES: 9:00 a.m.–2:30 p.m.
LOCATION: Learning Resource Center, Lienhard Hall, Pleasantville Campus
CONTACT HOURS: 43.2
EARLY BIRD FEE: $739 if registered and paid 14 days before the course begins
REGULAR FEE: $759 if registered and paid fewer than 14 days before the course begins

Required Textbook: Dosage Calculations Made Incredibly Easy, 2nd edition, Springhouse Corporation (2002). The textbook may be purchased at the Pace University Bookstore.
Registered Nurse (RN) Refresher Program: Clinical Component

To maximize your learning experience, a corresponding clinical is offered to all participants who are currently taking the didactic component of our Nurse Refresher Program. Participation is limited at each agency to provide hands-on clinical experience administered and supervised by highly qualified nurse educators/preceptors. Register early.

Admission Criteria:
- Active NYS RN license and malpractice insurance
- Health clearance
- Physical and cognitive requirements for an RN, per American Disabilities Act
- NYS-approved training in BPIC (within 4 years as mandated by NYS)
- CPR certification (professional rescuer)

All required admission criteria documentation must be received one week prior to the first clinical day.

DATES: October 18, 19, 25, 26; November 1, 2, 8, 9, 15, 16; or if your schedule permits flexibility, you may have the option of working the same days as your preceptor.

HOURS: 90 clinical hours

Locations and Participating Clinical Sites
Although every effort will be made to place you at agency requested, we cannot guarantee it.

Manhattan, New York
Coler Goldwater Specialty Hospital and Nursing Facility; Gouverneur Healthcare Services, Long Term Care Facility; Harlem Hospital Center; Metropolitan Hospital Center; New York Presbyterian

Bronx, New York

Burke Rehabilitation Center, White Plains; Sound Shore Medical Center, New Rochelle; Northern Westchester Hospital, Mt. Kisco; Hudson Valley Hospital Center, Cortlandt Manor; Vassar Brothers Hospital, Poughkeepsie; St. Luke's Cornwall Hospital, Newburgh; Good Samaritan Hospital, Suffern

EARLY BIRD FEE: $739 if registered and paid 14 days before the session begins
REGULAR FEE: $759 if registered and paid fewer than 14 days before the session begins

Suturing

Developed in response to the request of nurse practitioners for clinical updates and hands-on skills practice, these sessions will enable NPs to refresh and strengthen their skills in suturing and x-ray interpretation. These two sessions include a didactic presentation as well as hands-on practice in suturing or interpreting x-rays. Each group will be limited in size to facilitate the practice component, and early registration is encouraged.

Faculty: Robert D. Donaldson, RN, MS, FNP, adjunct faculty, Nurse Practitioner Program, Lienhard School of Nursing

DATE: November 15, 2005
TIME: 5:30–8:30 p.m.
LOCATION: Pleasantville Campus
CONTACT HOURS: 3.6

EARLY BIRD FEE: $82 if registered and paid at least 14 days before the session begins
REGULAR FEE: $89 if registered and paid fewer than 14 days before the session begins

SPECIAL NOTE: Students are requested to bring a pig's foot to practice suturing

X-ray Interpretation

Developed in response to the request of nurse practitioners and professional nurses who work in units such as invasive radiology and critical care areas, this program has clinical updates and a hands-on skills practice that will enable nurses to refresh and/or strengthen their skills in x-ray interpretation. This session will include a didactic presentation as well as hands-on practice in interpreting x-rays and correlating findings to actual patient case scenarios. Each group will be limited in size to facilitate the practice component, and early registration is encouraged.

DATE: November 11, 2005
TIME: 9:00 a.m.–4:00 p.m.
LOCATION: Pleasantville Campus

REGULAR FEE: $168 if registered and paid fewer than 14 days before the session begins

Campus addresses are located on the back of the brochure
Venipuncture and IV Therapy Skills for Professional Nurses

Do you need to know how to draw blood or how to become more proficient in starting IVs? Do you need to improve or refresh your IV skills and techniques and see what new equipment is being used? Are you a new graduate looking for as much hands-on skill training as possible? Are you moving into ambulatory/primary care and need to know how to do venipuncture? If you answered “yes” to any of these questions, then this is the workshop for you. This introductory-level course is designed for professional nurses in any clinical setting who need to know how to do venipuncture, and how to start and manage peripheral IVs. It includes a supervised hands-on practicum session with ample opportunity to practice venipuncture and IV insertion using butterflies and angiocaths on mannequins.

Distinguished Faculty: Tracey Bowen-Emanuel, MSN, RN, CEN, is currently working per diem in the Emergency Department at the Westchester County Medical Center. She also has several years experience in the coordination of home infusion therapy. Christine Iurato, BS, RN, CRNI, is currently a consultant for Health Care Management. Both instructors are experienced in teaching venipuncture and IV therapy skills; each session will be taught by one of the two instructors.

School Nurse Certificate Series Program

The Center for Continuing Education in Nursing and Health Care is proud to present the School Nurse Certificate Series Program, developed by a committee of school nurses for a very special nurse—the school nurse. The 12-week, three-hour evening sessions address key areas unique to the educational needs of the school nurse, across all practice settings and client age spans. Nurses working in pediatrics, regardless of the practice setting, may also benefit from attending one or all of the modules.

Conveniently scheduled, this program will meet approximately every other Tuesday, 4:30–7:45 p.m., on the Pace University Pleasantville Campus, throughout the school year. Mix and match classes based on your individual needs and/or interests. Attend all 12 sessions and receive a School Nurse Certificate.

NCLEX-RN Licensure Examination Review: Comprehensive Format

Our review is different from the others.

- Using the NCLEX-RN examination blueprint, Pace’s review format includes a comprehensive approach that incorporates pharmacology, supervision, delegation, management, and emergency disaster planning throughout content areas.
- Pace not only allows you but also encourages you to tape record all sessions.
- Pace provides you with shorter, more convenient sessions held over several weeks, without pressure, to give you time to absorb materials, review your notes, and think.
- Pace gives you the most for your money, with total in-class time of 50 hours.
- Pace’s 700+ original, multiple-choice questions are available online to help increase your comfort level with taking computerized examinations.

Here is what students say about Pace’s review.

“Do not miss one single minute. It was very helpful. Thank you!”

“Take the Pace University NCLEX-RN review course. It is the best and it really works! It offers an excellent test taking strategies review.”

“I closed my eyes and could hear the instructor’s voice in my head. Take the review course very seriously; listen to the instructors very carefully—they are the best.”

Still undecided? Consider these additional benefits:

- Pace surveyed more than 100 people who participated in the June 2003 review—more than 99.4 percent passed their NCLEX-RN.
- Pace faculty feel that it is important that NCLEX-RN review students learn proven test taking strategies and skills, and have included a full day, highly interactive session to the review.
- Pace gives you a 400-page NCLEX-RN review book to reduce your note taking and increase your time for listening and understanding—let us show you what and how to study!
- Pace stresses how to answer NCLEX-RN test questions, including the new alternate item format questions; how you can eliminate wrong choices and select the one best answer. Let us help you learn from your mistakes!
- Pace encourages you to tape record review classes to facilitate your own study at home, right up to exam time!

GUARANTEE: If you do fail the exam we are so sure of the quality of our review that we can offer you the chance to repeat this course at the nominal cost of $75 which includes the cost of a new book. Complete details will be included in the course packet you receive on the first day of the review.

Recognized by the New York State Board of Nursing

The fact that the presence of ethical issues in nursing practice is common and of concern to nurses is well documented and is constantly reaffirmed in conversations with nurses. Frequently, nurses recognize conflicts that suggest ethical dilemmas, yet are uncertain as to how to proceed.

The profession of nursing is grounded on an ethical platform that speaks to the profession's commitment to the health care needs of individuals, communities, and society; therefore, this program is for all nurses, including students, in every practice setting and at all levels.

Home Health Care Nursing

Introduction to Home Health Care Nursing 45.0 $99.00

The purpose of this comprehensive, interactive program is to introduce the nurse to the essential elements of home health care nursing.

Advanced Home Health Care Nursing 45.0 $99.00

The purpose of this comprehensive, interactive program is to introduce the nurse to the advanced concepts of home health care nursing.

Pediatric Home Health Care Nursing 45.0 $99.00

The purpose of this comprehensive, interactive program is to introduce the nurse to the concepts related to pediatric home health care nursing. Note: you must complete both Introduction to Home Health Care Nursing and Advanced Home Health Care Nursing before registering for Pediatric Home Health Care Nursing.

Recapturing the Trust 6.0 $78.00

The effect of a low-trust work environment is clear and evident: it is unhealthy for humans and projects! Low trust in the work-place yields low morale, poor work performance, and impacts retention rates. This Web-based program will help the nurse recognize her individual attitudes and provide tips on how to enhance productivity and satisfaction at work.
Certification Review: Psychiatric Nursing
14.2 $186.00
Psychiatric and mental health nurses have expertise in psychiatric and mental health nursing practice and understand theories concerning personality development and the behavior patterns involved in the treatment and case management of mental illness. Practice in this area also requires knowledge of the expected effects of treatment on client behavior and of the relationship this has to nursing care. This program will prepare the nurse to successfully complete the ANCC Certification Examination, test-taking skills and practice examination questions are covered.

Certification Review: Addiction
15.6 $186.00
This course will prepare nurses for taking the CARN Examination sponsored by the International Nurses Society on Addictions. The purpose of the course is to assist participants in reviewing key content areas in addictions nursing as well as test taking strategies and a practice exam.

Care of the Post Surgical Patient
7.6 $99.00
This program will review:
• the effects of anesthesia on both the healthy and multi-system involved patient.
• assessment parameters for the post-operative patient.
• management of the patient recovering from various orthopedic procedures.
• the type of anesthetic agents used and the nursing management of patients recovering from anesthesia.
• the management of the patient recovering from major abdominal surgery, in particular Bariatric procedures.
• age related complications, post surgery.
• indications for PCA and care of the patient receiving PCA.

Training in Barrier Precautions and Infection Control Measures
3.0 $39.00
New York State Approved
The law requires that registered professional nurses, licensed practical nurses, physicians, and allied health care workers who are licensed to practice in New York State must complete approved course work or training regarding infection control and attest such compliance to the Education Department at the time of first licensure and every four years thereafter.

Programs Brought To Your Location
Any of our programs may be brought on location to your facility Consultation is also available to develop offerings that are tailored to your individual training needs, and educational offerings may also be specifically designed for a group of cooperating facilities sharing costs. Please call the director at (914) 773-3358 for further information.

Accreditation and You
The Center for Continuing Education in Nursing and Health Care is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. This accreditation is awarded to organizations that have proven their capacity to provide quality continuing nursing education activities. In the face of the great number of continuing education programs being offered, ANCC accreditation is one way to identify quality programs. This approval is reciprocal in all states and for all specialty organizations that recognize the ANCC approval mechanism.

NOTE: If you are an ANCC-certified nurse, please be advised that 50 percent of your contact hours must be provided by an ANCC-accredited or -approved provider.

Continuing Education Records
In keeping with the American Nurses’ Credentialing Center’s guidelines, Pace University will award contact hours for the successful completion of courses. A contact hour is 50 minutes of an organized learning activity, which is either a didactic or clinical experience. After the first contact hour, fractions of or portions of the 50-minute hour will be calculated. In order to receive contact hours, participants must complete course requirements, and have paid for their workshop. Paid participants in our continuing education programs receive a certificate of attendance at the program’s conclusion for their personal records; for participants whose payment is pending, certificates will be mailed upon receipt of payment. In addition, our office maintains a permanent record of attendance for five years; a copy of this record is available upon request.

NOTE: Should you misplace or lose your certificate of completion for the Training in Barrier Precautions and Infection Control, Pace University will reissue a certificate for a prepaid fee of $10 (credit card, money order, or certified check only please).

Refunds
Should you need to cancel out of a program, please send us your WRITTEN request for a refund at least 14 days before the program begins. All refunds are subject to a nonrefundable administration fee. Most refunds are subject to a $50 administrative fee. Selected refunds may be subject to a higher administrative fee, as noted. Please allow 4-6 weeks for processing.

NO REFUNDS for cancellations made in the 7 days before the program begins. NO REFUNDS for “no show” the day of the program. Registrations received in the 7 days before the program begins are nonrefundable.

Commercial Support
Education activities are distinguished as separate from endorsement of commercial products. When commercial products are displayed, participants will be advised that accredited status as a provider refers only to its continuing education activities and does not imply American Nurses Credentialing Center’s Commission on Accreditation and/or Pace University Center for Continuing Education in Nursing and Health Care endorsement of any commercial products.
**Substitutions/Cancellations**
While it is rarely necessary, Pace University does reserve the right to substitute faculty or to cancel a course. In the unlikely event a course is canceled, registration fees would, of course, be refunded in full.

**Bad Weather/Emergency Information**
Call our 24-hour emergency number for information on classes:
- New York City (212) 346-1993
- Pleasantville (914) 773-3398
- Hudson Valley (845) 567-9284

**NOTE:** The CCENHC follows the same schedule as the University in a bad weather or an emergency situation. If Pace University’s classes are canceled, the CCENHC classes are canceled. If Pace University’s classes have a delayed opening or early closing, the CCENHC will adjust class times. Please contact our office for information on classes to be rescheduled.

---
